In the state pedagogical and recreational education establishment «Recreational camp «Sputnik», Lida district» about 360 children from the Lida District get health improvement every year in the summer period, in addition on the base of the camp traditionally organized «intellectual» shift for children from Minsk and Minsk District. Every year, children brought up in substitute families (foster care, guardianship), children at social risk, recognized as in need of State protection, children with disabilities, children with special needs of psychophysical development, are brought to health in the camp, In respect of whom specialists from various services

		<p>(employees of the district department of internal affairs, the district department for emergency situations, specialists of the social psychology and pedagogical service and others) conduct individual work. The project includes activities aimed at interaction with children of various categories, including individual classes with children with disabilities, educational interactive debates and round tables for children with different types of records, directed at the development of targeting, motivation and socialization.</p> <p>The construction and repair works planned within the project will allow to organize in the recreation camp various specialized sports shifts for children (football players, volleyball players, profile tourist shifts and others). The use of various relevant forms and techniques in the work with children will result in the effective involvement of children in a healthy lifestyle, their involvement in various leisure activities, the development of their personal potential.</p>
